

2 February 1954

**MEMORANDUM FOR:** Acting Deputy Director (Administration)

**SUBJECT :** Offers of Asylum in the United States as an Aid in Recruitment [REDACTED]

**REFERENCE :** Memorandum from Chief of Operations, DD/P, to Acting Deputy Director (Administration) dated 12 January 1954, Subject as Above with Attachments (ER 5-0793)

25X1A

The Medical Office concurs in subject notice with the comment that promise of asylum may be difficult of fulfillment in those cases where physical disease and/or psychiatric illness is present. Such difficulties may arise when attempting to meet the medical standards of the Division of Foreign Quarantine, Public Health Service, in regard entrance of aliens or the responsibilities of the Medical Office, if applied, in regard entrance under Public Law 110. Waiver of medical standards in either case may be obtained; however, existing medical difficulties could interfere with the subject's ability to become a "free and self-supporting resident".

**JOHN R. TIETJEN, M.D.**  
Chief, Medical Staff
